

# Kentucky Applicant Processing

**Upcoming  
Enrollment Services  
Information**

**Universal Enrollment  
Platform (UEP)**

# Kentucky UEP Project Future Solution

- **The Commonwealth of Kentucky has contracted with IDEMIA Identity & Security USA LLC in order to provide enrollment services for Agencies throughout the Commonwealth**
- **This will replace your current method of submitting applicants either at a private live scan site, or by sending in hard cards for processing**
- **Implementation tentatively set to occur October 2020**

# Kentucky UEP – Project Benefits

- Improves the capture, accuracy, tracking and delivery of record information for background check purposes
- Ensures data integrity, data validation, error remediation, and improved system performance
- Web Portal and Call Center available for applicants to schedule an enrollment session
- Unique Service Codes for fingerprint reasons eliminates printing for incorrect purposes
- FlexCheck Solution processes request and provides a portal with secure access to status and results for authorized users
- Eliminates the need for agencies to capture fingerprints, collect payments, and remit for processing
- Eliminates the need for the Kentucky State Police (KSP) to manually scan and process fingerprint hard cards

# Universal Enrollment Platform – UEP

Secure, Modern, Proven

*Developed for TSA Pre✓<sup>®</sup>, UEP is the most modern and secure biometric enrollment platform in the industry today.*

## Active solution for:

- TSA Programs
- CO Statewide
- MO Statewide
- OK Statewide
- NJ Statewide
- NY Statewide
- PA Statewide
- TN Statewide
- TX Statewide
- WV Statewide

- IDEMIA processes nearly 9 million applicants annually
- UEP specifically supports over 3 million applicants annually

Proprietary and Confidential, April 2020
