Dear Kentuckians:

Each year, hundreds of Kentuckians begin careers as law enforcement officers in what will be a lifetime of service to the commonwealth. They, and the thousands who rose to the call before them, have chosen a profession of service to make our state stronger, safer and more secure. Kentucky is committed to providing some of the most exceptional law enforcement training and practices in the nation, and in order to improve, we must know why crimes occur.

Transparency has been a top priority for my administration since day one. The people must hold the law enforcement officers protecting them accountable. Informed, educated and stronger decision making requires gathering complete and accurate data. The Crime in Kentucky 2021 report produced by the Kentucky State Police provides details regarding the commonwealth's annual crime statistics.

The report provides accurate information that is accessible and complete. The information it contains allows law enforcement to be more proactive and aware while allowing communities to make sure resources are being used in the most effective ways possible. Law enforcement training and policing are enhanced through the changes this information provokes. This improves the safety of law enforcement officers and all other Kentuckians.

Public safety is an issue in which each Kentuckian has a stake. I encourage all of our citizens to read this report. Without the teamwork that is required, we cannot continue our work to make Kentucky the safest state in the nation. With a clearer picture of the crime facing our commonwealth we can work to combat the issues as effectively as possible. Let's commit to working together in developing strategies to combat crime across this great state.

As governor, I am proud to stand with all of Kentucky's law enforcement personnel. Know that the state is proud of you and that we will be forever grateful for your service.

Sincerely,

  
Andy Beshear  
Governor

The total number of Group A crimes reported by law enforcement agencies in Kentucky during the previous year is shown in the chart above. These overall statistics reflect only offenses reported to or known by the police.

When making comparisons between years, the following should be taken into account: (1) Data is not inclusive of all offenses reported to the police; (2) Increases or decreases in the number of crimes reported can be attributed to a variety of factors, including methods of reporting and tabulating on the part of law enforcement agencies; (3) Differing levels of citizen awareness and their responsibility to report crimes have a direct impact on the number of reports received by police.
