Dear Kentuckian,

Since my first day in public office as Attorney General, one of my top priorities has been the safety and security of our great commonwealth and the people who call it home. As Attorney General and now as Governor, it has been an honor to work with law enforcement and public safety professionals to build a New Kentucky Home that is safer for all of our children and families.

This year, I am pleased to report a decrease of more than 8% in serious crime in the commonwealth, including declines in drug/narcotic offenses, homicide offenses, assault offenses and robbery offenses. Thanks to our law enforcement heroes in state and local agencies across Kentucky, we are holding offenders accountable while protecting more families from the heartbreak and pain that comes from these crimes.

But making our communities safer is about more than just reducing crime. It's also about preventing crime from happening to begin with. That's why my administration has prioritized second chances, making sure inmates leaving prison have the tools needed to succeed within their communities. It's also why we have expanded addiction recovery resources and support. On both of these fronts, we've made significant progress. 2025 saw both the fourth straight decline in overdose deaths and the second consecutive decrease in recidivism rates in the commonwealth.

Taken together, these accomplishments show that what we're doing is working. Fewer Kentuckians are committing crime or facing addiction, which means that we are all safer at home, work and school. I am proud to work alongside our local, state and federal partners to fight crime and ensure resources are available to agencies and organizations that work on the ground level to prevent crime. Our law enforcement heroes are the backbone of our commonwealth, and I will never stop working to make sure they have the resources, training and support they need to return home at the end of each shift.

To all of our law enforcement officers: Thank you. Know that Team Kentucky will never forget the sacrifices you make each day in the name of creating a safer commonwealth. It is in your honor that we continue to make our New Kentucky Home as safe as it can be.

Sincerely,

Andy Beshear
Governor

A summarized total of Group A crimes reported by law enforcement agencies in Kentucky during the previous year is shown in the chart above. These overall statistics reflect only offenses reported to or known by the police at the time of publication.

When making comparisons between years, the following should be considered: (1) This is only a snapshot of offense data at the time of publication and data are subject to change as new information or updates are received. (2) Data may not be inclusive of all offenses reported to the police; (3) Increases or decreases in the number of crimes reported can be attributed to a variety of factors, including methods of reporting and tabulating on the part of law enforcement agencies; (4) Differing levels of citizen awareness and their responsibility to report crimes have a direct impact on the number of reports received by police.

State reporting vs. Private reporting: All law enforcement agencies in KY submit offense data via NIBRS, (National Incident Based Reporting System). This is done either through the State provided system, "KYOPS," or through a private Incident Based Reporting System (IBR). During the 2025 reporting year, 4 departments submitted data through their own IBR system: (Louisville Metro Police Department, Winchester Police Department, Owensboro Police Department, and Nelson County Sheriff's Department).

It should be noted that slight variations in totals can be found based on how the state processes offense data received compared to how private reporting agencies submit data. This can be due to certain factors such as when data are received, how frequently offense data are updated, the date stamp attached to submitted files, and whether past year incidents are included with current year records as updates. As such, to ensure this report reflects the most accurately reported numbers at the time of publication, the system generated records for these departments have been replaced with verified totals approved by the individual private reporting agencies.

Private Incident Based Reporting Data

The statistics provided in the *Crime in Kentucky* publication are based on offense and arrest data submitted to the Kentucky State Police (KSP) by law enforcement agencies throughout the Commonwealth.

KSP requires that offense data be submitted in accordance with the FBI's National Incident-Based Reporting System (NIBRS) specifications.

NIBRS data are submitted electronically to the state through one of two methods: via the state's free reporting tool, KYOPS, or through an agency's own private Incident-Based Reporting (IBR) system. Agencies using their own systems are referred to as "IBR agencies."

The statistics presented in the *Crime in Kentucky* publication represent a snapshot of offense and arrest data at the time of release. Reports received after the release date, or updates to previously submitted data, may affect prior totals. Therefore, data are not static and are subject to change after publication. Additionally, the way data are submitted through private IBR systems can impact totals — for example, through rejected incidents (those that fail to meet NIBRS specifications), or when a file's date-stamp is later than the incident year being reported.

To ensure the most accurate representation of crime, data which are not pulled from the KYOPS system will rely on verified numbers approved by IBR agencies, rather than system-derived figures from file submissions. As of this publication, only four agencies use their own IBR systems for submitting offense data to the state: Louisville Metro Police Department, Winchester Police Department, Owensboro Police Department, and Nelson County Sheriff's Department.
